

Albuquerque Weekly Citizen

VOLUME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY, JULY 12, 1902.

NUMBER 35

Territorial Topics

WHITE OAKS.

From the Eagle.
Thomas H. Walsh has gone to El Paso to look after business matters. The oil well is down a little over 300 feet. The drill is now in red slate. Twenty feet of this slate has been passed through. Good headway is being made.

M. Harper and wife are in the city from Three Rivers. Mr. Harper has bought Mrs. S. E. Barber's ranch and cattle and has located there. He came from El Paso.

Mr. Hunt, the prosperous ranchman who lives on the north side of the Capitan mountains, was in town buying supplies. He was accompanied by Mrs. Hunt, and also by his father and step mother who are on their way to visit Mr. Hunt and family. The old gentleman lives at Wellington, Kas.

CARLSBAD.

From the Argus.
Ed H. Gamble has disposed of his interest in the Pecos Valley Grocery company, selling to his partner, J. M. Pardue.

A. A. Beaman has resumed his old position as bookkeeper in the First National bank, vice Sam Ruffner, who left for his old home in Raton.

Mr. and Mrs. F. G. Tracy left for Denver, where Mr. Tracy will arrange for the placing of his big peach crop and Mrs. Tracy will spend a month visiting with her sister, Mrs. D. W. Miller. Mr. Tracy will visit all the larger Colorado cities and be back in about ten days.

Prof. H. E. Berner has received the proffer of the principalship of the public schools at Clifton, Ariz., and has decided to accept it. Clifton is considerably larger than Carlsbad, and the salary is proportionate, therefore, Mr. Berner is to be congratulated.

G. W. Roberts, the Guadalupe ranchman, was in town and reports that his section of the mountains is sadly in need of rain. Mr. Roberts recently sold his flock of goats to Allison & Shetlock for \$2.18 a head, about 1,600 in the bunch. He contemplates buying more Angoras as soon as he can get them and will go a little deeper in the cattle business as soon as it rains enough to start the grass in his section.

Willis Caldwell left for a business and pleasure trip of about six weeks duration. He goes first to Topeka, Kas., where he will remain about a week to have his hand, which was badly hurt by the ruffians who held him up and robbed him some months ago and is now so stiff that he cannot close it, treated by an expert surgeon. Afterwards he goes to his old home at Osceola, Ind.

SOCORRO.

From the Chieftain.
R. W. Monroe arrived in the city and received a hot, dry welcome from his numerous Socorro friends.

Mrs. John Greenwood has returned from a visit with relatives and friends in St. Louis and Kansas City.

Dr. Wm. Driscoll, Pierre Hines and Marvel Smith came down on an extended stay in Water Canyon.

May & Yunker have leased the Browne & Manzaneros store building near the depot and will convert it into a storage warehouse.

Miss Flora Emig, of El Paso, is a guest at the home of her uncle and aunt, Mr. and Mrs. W. G. Hammel, on California street.

W. H. Byerts is still making some progress in drilling for water on his fruit ranch west of town, though not so rapid progress as could be wished.

C. H. Elmendorf, of the American Valley company, was in Magdalena waiting the arrival of a large quantity of wool from the ranges for shipment.

Miss M. F. Clark, of Worcester, Mass., and Will W. Clarke, of Organ, N. M., were in town between trains on their way to visit their parents, J. and Mrs. C. C. Clark, of Kelly.

Miss Mary T. Stevens, of La Junta, Colo., is visiting at the home of her uncle and aunt, Mr. and Mrs. James Stevens, on her way home from a prolonged stay in Prescott, Ariz.

The glorious Fourth was a quiet day in Socorro. There was a generous display of flags and bunting and the small boy celebrated in the usual way. Otherwise an unusual quiet pervaded the city.

Samuel Locke was in Magdalena in his capacity of cattle inspector to look after the shipment of several carloads of cattle and horses from the western part of the county to eastern points. Mr. Locke is giving excellent satisfaction in the position he now occupies.

Dr. Charles R. Keyes, director elect of the faculty of the School of Mines, expects to arrive in Socorro about the first of August. He writes C. T. Brown,

secretary of the board of trustees, that he has already received letters of inquiry concerning the work of the school from a number of young men in various parts of the country, and that he hopes to see a considerable increase in the number of technical students in attendance at the institution.

SANTA FE.

Sousa's Band Booked—Mrs. Thomas Smith to Visit Capital—Water at Santa Fe.

From the New Mexican.
A. M. Dettelbach, the opera house manager, has booked Sousa's band for Thursday evening, October 30.

The demands upon the sanitarium are such both summer and winter that a new building is one of the necessities of the immediate future.

Mrs. Thomas Smith, of Virginia, at present in California, will return to Santa Fe in about two weeks to spend the summer. She has engaged rooms at the sanitarium.

C. J. Crandall, superintendent of the government Indian school, left for Minneapolis, Minn., where he will attend the National Educational association meeting. Before returning he will visit other eastern points.

Hon. Matthew G. Reynolds and son, Matthew G. Jr., accompanied by Page B. Otero, J. W. Akers, John L. Zimmerman and John Dixon left for the Conchos river, Colorado, on a fishing trip.

Although less than half an inch of rain has fallen in Santa Fe the past 24 days, yet there is still water in the Santa Fe river, thanks to the Pecos river forest reserve. Forest reserves are a good thing when they really protect the water supply of a section.

Judge A. L. Morrison relates that when he was police judge at Chicago that there was scarcely a day that he didn't need to wear an interpreter or two in order to carry on the business of the court. Four to five nationalities were frequently represented in the hearings and yet this fact does not bar Illinois from statehood. Judge Morrison says that of all the arguments against statehood that which wants to deny statehood to New Mexico because some of its people cannot speak English is the most flimsy.

Jacob Safford, son of Mr. and Mrs. C. V. Safford broke his arm by falling from a fence.

Two Gila monsters in the show windows of the Fischer Drug company are attracting much attention.

A. P. Hill has accepted a position as bookkeeper and clerk in the grocery store of George Anton in the Catron block.

Miss Catron, of Houston, Texas, niece of Hon. T. B. Catron, is a guest at the Catron mansion.

Forest McKinley, special agent of the general land office, left for Roswell, Chaves county, to look after timber depredations, homestead abandonment and drift fences.

Upon special permission of the court, District Attorney E. C. Abbott has filed a suit for the Territory of New Mexico vs. S. S. Beatty to recover \$375.98 of delinquent taxes and penalties.

Mr. and Mrs. F. H. Pearce, of Las Vegas, and Mrs. Donald Tyler and Master Donald Tyler, of Owensboro, Ky., arrived from Las Vegas and will be the guests of Gov. and Mrs. Otero. Mr. Pearce is the superintendent of the Agua Pura Water company at Las Vegas and also president of the board of penitentiary commissioners.

Frank Newhall received a letter from his father, James Newhall, telling of his safe arrival at Fort St. Michael's, Alaska. At present there is no night at St. Michael's as the sun only goes down to the horizon evenings and at midnight starts on its journey toward the zenith again. Provisions are high and the country looks very desolate. It is so wet that there is two feet of muck in the principal streets of the camp. Two hundred soldiers are at present stationed at St. Michael's.

Probate Clerk Manuel Delgado has recorded a deed by E. H. Bierman and Josephine Bierman to G. L. Brooks and W. S. Strickler for a parcel of land at Golden, area four and one-third acres.

Judge McFie signed the final decree in the case of the Acquia del Cano et al vs. Acquia del Liano et al, providing for the distribution of the waters of the Nambé river in and around the Indian pueblo of Nambé.

Isaac Van Arsdell, of Voladerna, in the state of Durango, Mexico, is visiting his brother, James Van Arsdell. Mr. Van Arsdell went to Mexico from Santa Fe seven years ago and has been prospering in the republic.

It is reported that the Santa Fe river has been turned out of its course near its head in order to catch the trout which are plentiful this year in the river. The water of the stream is rather low and it is not difficult to turn it

out of its course for quite some distance.

The Santa Fe Hook and Ladder company held an interesting meeting. The following officers were elected: Foreman, Maurice Duran; assistant foreman, Henry Pacheco; treasurer, A. M. Dettelbach; secretary, R. Tenorio; representative on the fire board, Joaquin Martinez.

Mrs. G. Wilson died of pneumonia at the home of Samuel Fallon on the south side. Mrs. Wilson came here from Mitchellville, Iowa, some time ago for the health of her three daughters who were with her when death came. She was aged 64 years. The remains are being embalmed preparatory to sending them to Mitchellville for interment.

LAS CRUCES.

From the Progress.
Dr. B. E. Lane spent a couple of days this week at Modoc.

Marriages are getting to be quite a fad in Las Cruces lately.

Mrs. G. T. Preston will leave soon for her old home in England.

Virginia Carrion died last Tuesday, after having suffered a long illness. H. L. Bowman and wife left for a summer vacation on the Pacific coast.

Miss Lottie Sweet has been visiting with Mrs. Roberts, the milliner, this week.

Miss L. Enderidge has been visiting her sister, Mrs. Colman, of Mesilla Park, the past week.

Ralph French is in from his cattle range for a few days. He reports that he has a good water supply and that his cattle are not suffering from the dry weather.

While Willie Lerma and a companion were inspecting a toy pistol Friday it went off. Willie got the full effect of it in the face and will be laid up for a time.

This week W. E. Baker acquired control of the Halsey telephone by buying. This will give Mr. Baker complete control of the telephone situation in Las Cruces, and will give him the opportunity to give Las Cruces first class service. There is plenty of room here for one telephone company. We can not but condemn the course some have taken in ordering their phones taken out on learning the change. The Progress likes the change no better than a good many others, but we can not see that this is a sufficient reason for inflicting the telephone service. It is only spite work and will not benefit those ordering phones out in any way, while it will injure Las Cruces. It is probable that Miss Archibald, who has given such excellent satisfaction as "central" for the Halsey job, will be retained in the same position for the consolidated company.

The telephone consolidation doesn't seem to prosper under the new management.

Mrs. Preston intends to leave next week for England, where she will reside in the future.

Attorney R. L. Young and Henry Stoes returned with their families from the Rudoso.

We have demanded statehood until we are hoarse and congress didn't even vote us a lozenger.

Charlie French left for Arizona on Thursday, where he is employed as conductor on the Southern Pacific.

Misses Elizabeth and Annie, the charming daughters of Hon. P. F. Garrett are with us for a few days.

W. E. Baker's electric light plant is about completed, and Cruces will get a little light on the subject.

Hon. W. R. Acarate and bride passed through on their way to California by the way of Albuquerque Tuesday night.

Thirty is the number of applicants so far that have filed their papers with the clerk of the school board that wish to teach in the Las Cruces public schools.

SAN MARCIAL.

From the Bee.
The second crop of alfalfa is being cut and saved in good shape.

William E. Young, a resident of Old Town, and quite an old timer in this vicinity, died at 2 o'clock Tuesday morning.

The new contractor is packing the Rosedale mail on horseback. This is looking backward with a vengeance and the service cannot fail to be a discredit to the postoffice department.

S. A. Clark has gone back to his old home at Cherry Valley, Ohio, to spend some three months. Mr. Clark has many friends here and if the rumor is true that he will return with a young wife, they all offer congratulations in advance.

H. H. Morgan and Dr. Riggs were in from the Armstrong ranch this week. They brought in the skin of a large black bear and the skin of a monster mountain lion. The doctor was looking well and the stories told of his prowess as a mighty hunter were ignored by him with becoming modesty.

TULAROSA.

From the Democrat.
Mrs. Gritzmacher returned home from El Paso, where she had been visiting her mother.

J. F. Milner, who resides in La Luz with his family, has taken his wife to El Paso and placed her in the Hotel Dieu, where she will be treated for tumor in the stomach. She is a very sick woman.

Clovis Aguilar, son of Pedro Aguilar, at this place, returned from Santa Fe, where he has been attending the St. Michael's college. He passed an excellent examination and returned full of honors.

There are more "promoters" to the square foot in and around Tularosa than any town in the territory and

still they accomplish nothing. Parties come here to purchase homes and leave the town disgusted. Citizens of this place should give no option on their property to Tom, Dick and Harry unless they put up to hold the same, as it often prevents them from making an advantageous sale.

ROSWELL.

Happenings at Westover's House—Tansill Advertising Pecos Valley—Miss McCune's.

Chaves county, by Mr. Mark Howed, county treasurer, turned, over to the Territorial treasurer, \$14,556.61, 1901 taxes collected in May.

Alfred Day began drilling a well for Mrs. M. E. McCune, on her 40 acre farm, three miles east of town. They are sure to get a good artesian flow there at a reasonable depth.

J. J. Egan came in from "Old Man Harry's" ranch at the foot of the plains. He found awaiting him in the postoffice, a queer letter from his nephew in New York City. It was a well worn, freshly laundered standing linen collar, with a letter written on one side, and the address on the other.

Mrs. J. A. Erwin, wife of the founder of the Register, who is now a federal judge in Porto Rico, passed through here for Carlsbad, accompanied by her brother, L. O. Follen, postmaster at Carlsbad, for an extended visit with him. Judge and Mrs. Erwin were residents of Roswell in 1888 and 1889, and are well remembered by all the old settlers here.

John Westover and his wife think they had a variety of happenings at their home last week. On Thursday about 10 a. m., a bouncing baby boy was born to them. The next day, at the dinner table, Jason, their little 2 year old son was hanging onto the high chair of his sister, Josephine, 3 years old, tipping it over and breaking her right arm above the elbow.

R. W. Tansill, the Carlsbad promoter, was in town on business, having purchased the interest of C. D. Donney in the Mormon mine in the Organ mountains. Mr. Tansill is doing more to advertise Carlsbad than is being done for any other town in the territory, without exception. In a recent number of the Chicago Record-Herald he had a write up of Carlsbad and the Pecos valley illustrated with a number of views, two of which are Roswell scenes, Carlsbad credited to the vicinity of Carlsbad. On being taken to task for it Mr. Tansill said: "That's all right; we're advertising the whole valley."

From the Record.
J. J. Hagerman made a purchase of 300 head of 2 year old heifers from George Slaughter and now has a man at the ranch receiving the cattle. The terms are private.

Mrs. Harry Hammon, whose husband is employed on the Carlsbad Argus, came up from the Peach city for a visit with her mother, Mrs. S. A. Karr.

S. H. Crawford, J. W. Abbott and F. M. Green, of Vernon, Texas, left for their homes after a delightful visit in Roswell. The party came here overland from Lubbock and were amazed at the richness and beauty of the artesian belt.

Bertha Hanney, of Cincinnati, Ohio, is visiting her brother, Albert, Hanney. Miss Bertha attended the public schools of Roswell a few years ago and though only in the sixth grade could solve all the mathematical problems for the eighth and ninth grades.

Col. R. S. Benson, of Florence, spent a little while in this city between trains Saturday. He was on his return from Kansas City, where he had shipped fifty head of fine young hogs. He reports the demand for hogs as slow this year, probably on account of the taking down of the drift fences.

Miss Bessie McLane could not have wished for a more hearty greeting than that which she received in the Methodist church on her first appearance before a Roswell audience since graduation. The large auditorium of the church was well filled with an intelligent and sympathetic audience, who inspired the young eloquist to do her best and she was equal to the occasion. The recital was made up of six selections made by the performer herself from Mary Johnson's popular novel "To Have and to Hold." While all the acts were well rendered, Miss McLane was at her best in the lighter parts, yet she is by no means lacking in either the passion or voice which will make her strong in the dramatic and pathetic with further practice.

PORTALES.

From the Herald.
J. D. Hurley and son-in-law have returned home after several days absence. This return was hastened by the sickness of Mr. Wood, who is thought to be alkali.

Fred Atkinson met with a very painful accident this week. He was thrown from his horse and his collar bone broken. The break is of such a nature that his physician finds it difficult to hold it in place, and it may cause him serious trouble.

Dr. T. C. White has purchased the vacant lot adjoining Inda Humphrey's hardware store, and will begin at once to build a two story business house, the lower floor of which will, when completed, be used for a drug store by the doctor and the upper floor will be used for offices.

R. L. Wood was in town this week and informs us that he has taken down about twenty miles of fence and is still at work. Wood is a rustler, but we see no cause for haste in this matter, as the cow men have virtually won a victory, as it has been decided to test the

validity of the order removing drift fences in the federal courts. Mr. Wood can rightly claim a part of the victory, as he worked hard to have the fences stand.

DEMING.

Wardwell All Right—Valuable Cows Dead—Wealthy Goat Raiser—License Money Returned.

From the Herald.
Mrs. Mary A. Smith left for her home at Albion, Mich., while Mrs. R. R. Smith has arrived in Deming to again locate.

L. C. Wardwell, the obliging railroad hackman, appears to be the right man in the right place. Deming could not get along without him now.

Some gem stones taken from a deposit said to exist near this city, have been left at Tansill's jewelry store to ascertain their value. They are red in color and polish quite readily.

Mr. Russell, the milk man, lost a very valuable cow by death, which makes the second one that he has lost during the last six months. Both were valued at \$150.

Mrs. Armour, the wealthy goat raiser of Kingston, N. M., was in Deming visiting friends. She has more than 25,000 goats in her herds and every one of them nets her \$1 a year. Her herds have annually increased and today it takes twenty herders to take care of her flocks.

A while before his death in this city Dr. F. A. Farrell was an applicant for license before the Territorial Board of Health, forwarding the necessary fee for the same. Before the license could be granted the doctor died, and recently the money was refunded to his family.

It is declared by his many friends the only time in his life that Charley Johnson, the popular mixologist at the Cabinet, was in any way ruffled in disposition was when he was held up by a six shooter in the determined hand of the highway robber St. John, last January. Then Charley was kind of ruffled sure.

Jesse B. Pease, bookkeeper and clerk for N. A. Bolch, expects to start about the 10th of this month for a visit to his parents in Pennsylvania. Mrs. Pease is in Seattle at the present time.

Edwin Matthews, who has resided here with his uncle and aunt, Mr. and Mrs. E. Matthews, for the past seven years, left for a visit to his parents and relatives in Chillicothe, Mo.

Probably the largest valued deed that has ever been recorded in New Mexico was that of the Southwestern Railroad company to the El Paso & Southwestern Railway company, which was filed with the probate clerk of Luna county, E. Y. McKee's, this week. The deed is of value \$5,500,000, and bore revenue stamps to the value of \$27,487.

Mollie Wilson, the insane woman, who has for the past year been in confinement in the jail of this county and for a long time before that was confined in the Grant county jail will be sent to the insane asylum at Las Vegas early next week. This will remove quite a burden from this county, as the expense of the woman's keeping was no small affair.

Miss Paney Smith, who for the past nine months has been absent from her home in this city attending school in New York, returned, and it is hoped by the many friends of Miss Paney that she will now remain in Deming, where she has a host of warm friends.

Miss Dot Galloway, accompanied by Mrs. McIntosh of Salt Lake city, and with whom Miss Galloway has been visiting for the past three months, passed through Deming for her home in Silver City. Miss Galloway is practically cured of the rheumatism with which she was a great sufferer when she went to Salt Lake.

W. H. Greer returned from a hurried trip to California. Mr. Greer was accompanied on his return by D. M. Linnard, of Pasadena, Cal., who is now looking over the country with a view to investment. It is expected that Mr. Linnard, in company with other capitalists who will come here, will soon open a bank in this city. We are reliably informed that the new bank will be opened in the new Clark & Co. building that is now being built at the corner of Gold avenue and Pine street.

Stops the Cough and Works Off the Cold.
Laxative Bromo Quinine Tablets cure a cold in one day. No cure, no pay. Price, 25 cents.

LORDSBURG.

From the Liberal.
Mrs. Dr. Burich and son returned from visiting Mrs. Burich's relatives at Benton Harbor, Mich.

M. E. Thorpe, assistant cashier of the Gila Valley Bank and Trust company, who was in charge of the Moronec office, died from an attack of typhoid fever. There has been considerable typhoid fever at both Moronec and Clifton.

Milton McLean, who has charge of the mining operations for the Detroit Copper company, was down from above, looking at some properties out in the Virginia district. Saturday morning last he received a telegram announcing the death of his daughter, who has been sick in Los Angeles. He took the train for Los Angeles that afternoon.

Rev. R. W. Illingsworth was in the city. He has resigned the pastorate of the Presbyterian church at Moronec and the editorship of the Moronec Standard. He has received the appointment as general missionary of the Presbyterian church in Arizona, and will devote his time to missionary

work. He will make his headquarters in Phoenix, and will move his family there after it gets cooler.

RATON.

From the Gazette.
Mrs. Geo. Huth was seriously ill the first of the week.

J. R. Givens is able to be around again after several days lay off.

Mrs. Anna Knox, of Raton, has been granted a pension of \$8 per month.

B. Hinchins, a well known fireman, here, has resigned and gone east to remain.

Joe Fowler, of Catskill, has purchased the Gem saloon, taking possession July 1.

Mrs. J. J. Shuler returned from a two weeks' visit with her sister, Mrs. Haynes, of Colorado Springs.

Mayor C. M. Hayne left immediately after the Fourth for his annual eastern trip. He will be gone about sixty days.

Judge F. D. Morse and family will leave for Santa Rosa this week, where they will make their future home. The judge will engage in the law and real estate business.

M. Mendenhall and Wm. Jearls, the cement sidewalk builders, are again in the city and will begin work in the residence portion of the city this week. Raton will soon have more cement sidewalks than any other town in the territory.

TUCUMCARI.

From the Pathfinder.
Laborers are wanted on the Dawson railway, between Tucumcari and Spring.

The Fourth of July celebration at Tucumcari was to say the least, a complete success.

Much work will have to be done on the Pecos valley line before it will be in shape to carry mail line passengers.

The celebration of the Fourth at Tucumcari closed with a grand ball. The ball was largely attended and the music good.

Dr. Tomlinson has most of his goods in his store room at Tucumcari, but carpenters are so scarce in the burg it is almost impossible for him to find a team to put up shelving.

One of the most elaborate social functions of the season was that given by Messrs. William Thompson, Augustus Thompson and Robert Gray, of the C. A. ranch, complimentary to Misses Payne and Shelton, of El Paso, Texas, and Miss Portevan, of Grand Rapids, Mich. The spacious rooms, the floral decorations, the toilettes of the ladies and the hospitality of the hosts, combined to make the occasion a notable one in Actaque canyon.

SANTA ROSA.

From La Voz Publica.
Hon. Andres C. Aragon, late of Chaves, is in town and will remain until next October.

Dr. J. Addison Jackson, of this town, has been appointed by the county superintendent of schools as one of the members of the school board in this district, the other two being Cres. Baca and Luciano Serrano. Dr. Jackson's appointment is a good one.

Pascual H. Baca has returned home accompanied by his two children, Miss Pelagia and Pablo, who have been attending school with the Sisters of Charity at San Miguel. Mr. Baca reports the commencement exercises of that institution to have been a great success. Miss Pelagia was awarded a gold medal for efficiency in translation.

SETTLEMENT IMPOSSIBLE.

Men and Officers Failed to Reach an Agreement.
Chicago, Ill., July 9.—It was hoped with considerable assurance the consummation of the freight handlers' strike which has almost paralyzed railroad shipping since Monday will be called off by tonight. Pursuant to a plan laid on by the state board of arbitration yesterday and accepted by the parties in the controversy, a meeting of strikers was held this morning for the purpose of appointing commissioners from the various roads to visit the offices of the respective roads. It is believed these committees and the railroad managers will be able to compromise as their views on the wage question have been very near similar.

At noon today the indications were the conference of railroad men and commissioners from the warehousemen would fail to bring about peace in the freight handlers' strike. The Rock Island, Lake Shore, St. Paul and Monon officials refused to treat with the men because they are not empowered to make a final settlement.

President Curran, of the Freight Handlers' union, said at 2 o'clock the conference failed to bring about a settlement of the strike. He said he would prepare another plan.

The people of Silver City and especially the members of the local lodge of Elks, very much appreciated the visit of the Albuquerque Elks last week on the occasion of the big celebration. The Albuquerque visitors were all royal good fellows, and their presence added a great deal to the success of the day or rather days. The people of Silver City will commemorate by attending the territorial fair this fall in large numbers.—Silver City Independent.

Progress Uninterrupted.

London, July 9.—The following was posted at Buckingham Palace at 10 o'clock this morning:

"The king's progress is uninterrupted. His majesty sleeps well and is gaining strength. The wound is slowly healing."

the work of years

of constant experiment has made Levi Strauss & Co's copper riveted overalls the strongest best made most durable garment the world has ever seen
